Bidding Markets - ideas.repec.org

The existence of a "bidding market" is commonly cited as a reason to tolerate the creation or maintenance of highly concentrated markets. We discuss three erroneous arguments to that effect: the "consultants' fallacy" that "market power is impossible", the "academics' fallacy" that (often) "market power does not matter", and the "regulators' fallacy" that "intervention against pernicious ...

Competition Policy in Auctions and 'Bidding Markets ...

Thus, using (1)-(3) or (1)-(4*) to define a bidding market, it makes sense that “the existence of a bidding market is a commonly cited reason by competition authorities to tolerate the creation or maintenance of highly concentrated markets” (UK Office of Fair Trading, 2004a: Para 5.33). B. Auctions and “Bidding Markets”

Furthermore we argue that the term "bidding market" as it is widely used in antitrust is unhelpful or misleading. Auctions and bidding processes do have some special features - including their price formation processes, common-values behaviour, and bid-taker power - but the significance of these features has been overemphasized, and they often ...

There were enormous differences in the revenues from the European "third generation" (3G, or "UMTS") mobile-phone license auctions, from 20 Euros per capita in Switzerland to 650 Euros per capita in the U.K., though the values of the licences sold were similar. Poor auction designs in some countries facilitated collusion between firms and failed to attract entrants. The sequencing of the ...
