### Mindful 3d For Dentistry 1

On November 13 th, 2018, I shared my challenges, the stresses we all feel in dentistry and what I had learned about mindfulness. By the end of the presentation, I was so moved, seeing and hearing from many of my colleagues about the challenges that they face in dentistry and the constant pursuit of the work-life balance.

### Mindfulness in Dentistry - Women in Dentistry

Mindfulness Sessions "I found the course very beneficial. It provided me with the opportunity to take a step back and see the bigger picture, which really helps to put things into perspective in dental school...I'm very glad that I participated in the mindfulness course and have already recommended it to my classmates..." shared UKCD student Austin Delpont.

We teach using low-cost, desktop grade 3D printers that cost less than \$4,000 for a printer and dental models only cost around \$1-2 each and surgical guides \$4-5 each! We also teach established workflows using affordable laboratory printing and milling equipment to print and mill occlusal guards and crowns!!

### Dental 3D Printing For Restorative & Surgical Procedures ...

"Remember to breathe, now." I smiled. Or, at least, I tried to, what with all the sharp dental objects protruding from my mouth, and my lips half-numb with Novocaine.. But even in my lightly-medicated state, the irony of the dental assistant having to tell the mindful lady to remember to breathe did not escape me.

### Mindful Dentistry - Left Brain Buddha

In dentistry, 3D printing already has diverse applicability, and holds a great deal of promise to make possible many new and exciting treatments and approaches to manufacturing dental restorations.
